Friends,

This is an example letter typeset with the cseletter class file for use with L^AT_EX2_ε. You may customize it for your own purposes by altering the arguments appearing in the preamble of this sample file. The class understands all the options of the usual letter class, plus options to identify which logo to use:

bwlogo Use a black and white logo; handy if you plan to print on a black and white printer.

colorlogo Use a full color logo.

nologo Don't use a logo.

Sincerely,

Alexander Russell
